Display Full Educational Path in Header Card

Task Title

Show Complete Educational Path (Stage + Semester) in Dashboard Header Card

Description

The first card on the home/dashboard page currently displays only the **semester/term name** (e.g., "الفصل الثاني"). It should instead display the **full educational path** including both the **stage/level** and the **semester/term**.

Current Issue

The header card on the dashboard shows incomplete information: (e.g., "الفصل الثاني").

Expected Behavior

The header card should display the **complete educational path** with both the stage and semester clearly shown

Example Display Format

Element	Example (Arabic)	Example (English)
Institute Name	معهد منصة بالحكمة الإلكتروني	Al-Hikmah Platform Institute
Stage/Level	المرحلة الأولى	Category 1 / Level 1
Semester/Term	الفصل الثاني	Category 2 /Semester 2

Implementation Details

Technical Notes

1. Fetch both stage and semester data from the user's enrollment/progress API

2. Display both values in the header card with clear visual hierarchy

3. Handle RTL/LTR properly:

Arabic: المرحلة الأولى > الفصل الثاني

English: Stage 1 > Semester 2

4. Fallback behavior: If stage data is not available, show only semester (current behavior) with a graceful fallback

5. Styling: Use appropriate font sizes and colors to distinguish between stage and semester (e.g., stage in smaller/lighter text, semester in larger/bolder text, or vice versa)
